Conference - ISSOP’S Annual Conference – Children in Armed Conflict: Rights, Health and Well-being

It is with a great deal of excitement that ISSOP and our co-sponsors—American University of Beirut, International Society for the Prevention of Child Abuse and Neglect, and the Lebanese Pediatric Society—invite and welcome you to join us at this important interdisciplinary meeting of child advocates. At no time in recent history have children been exposed to armed conflict and violence to the extent that is happening around the world—today. It is critically important that child health professionals, in collaboration with other child advocates, learn how to advance the global rights, health and well-being of these children and families.
